## Poster gallery

The poster gallery is located on the right-hand side of the timeline and displays all of the

pre-recorded ePoster presentations. You can visit the poster gallery at your convenience, it's always open.

Hover your mouse over the presentation you wish to view and select view presentation. This will navigate you to this individual ePoster presentation where you can watch the pre-recorded presentation and download the ePoster PDF or abstract.

There are over 40 ePosters in the gallery and you may wish to view only a specific theme, or search for a specific poster.

**To do this**, select the **Advanced** link and select the theme, presenter's name, organisation name, poster number etc that you wish to find.

You can also mark specific presentations as favourites using the star functionality.

When you select the favourites filter on the timeline page, only those selected ePoster presentations will be displayed in your poster gallery.

**Note: If you have used the favourite filter in the oral program when you access the poster gallery, the posters will not be viewable. You will need to first turn off your favourites filter on the home page.**

If you would like to post a question to the ePoster presenter or share information, you can enter this into the Discussion Forum chat box.
